

Epiroc Grey line

Tophammer drill bits for an optimized performance

Cost-efficient quarrying and surface drilling

Our new range of Epiroc Grey line bits are specifically developed for European quarrying and surface construction drilling conditions, made with high-quality steel they optimize rock drilling efficiency, ideal for less demanding rock applications. Epiroc Grey line delivers an optimal performance from your drill string, improving drilling economy when managing costs and profitability are a priority.

⊕ Main benefits

Improved drilling economy

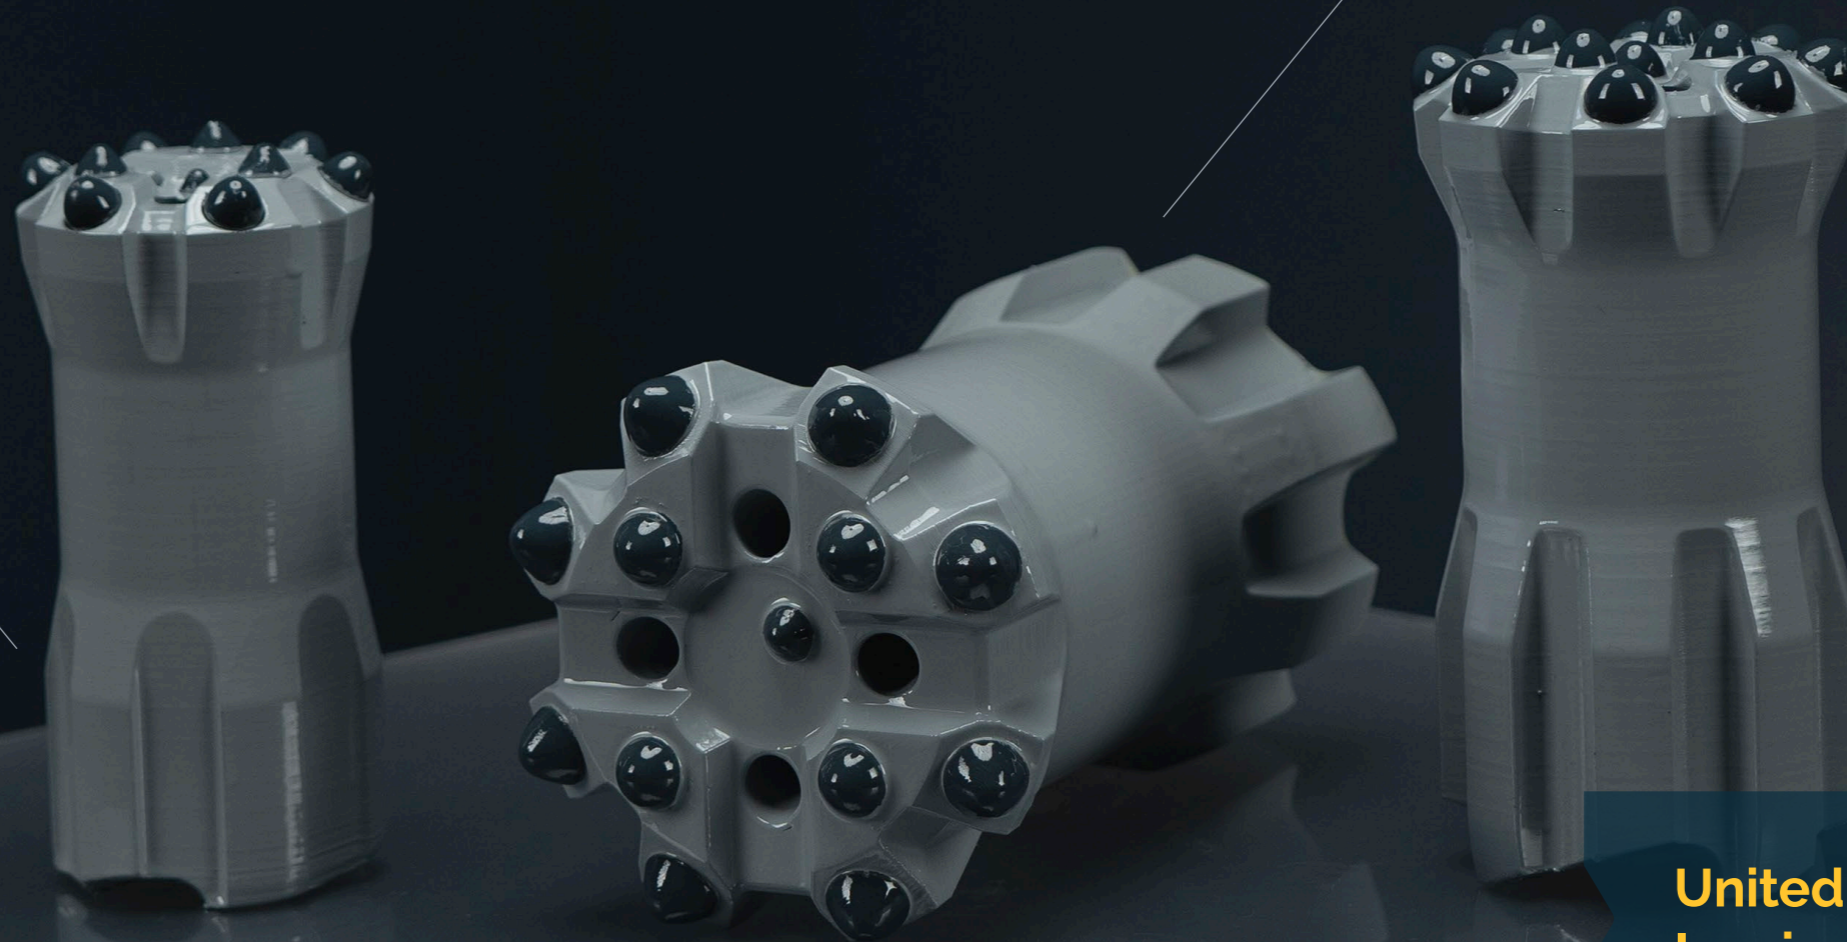

Less downtime, focus on reliability

Epiroc quality assured products

Minimizing costs – Epiroc's Grey line products can transmit power into the rock efficiently and safely, optimizing the drilling cost per meter with less wear, lower fuel consumption and sustainable drilling.

Consistent performance – with greater availability of equipment during the drilling cycle Grey line manufacturing quality and product reliability ensure consistent performance over time.

Compatibility – with Epiroc's industry standard T-thread drill string, you can use Grey line bits on the Epiroc Yellow line rods, and on other manufacturers rods using the same common thread type.

**United in performance.
Inspired by innovation.**

Performance unites us, innovation inspires us, and commitment drives us to keep moving forward. Count on Epiroc to deliver the solutions you need to succeed today and the technology to lead tomorrow.
